DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Remarks, filed 10/3/2005, with respect to claim 1 have been fully considered and are persuasive. The double patenting rejection of claim 1 has been withdrawn.

REASON FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: as to independent claim 1, the closest prior art of Echerer et al alone or in combination with other prior art fails to disclose an apparatus as recited in independent claim 1. In particular, the key distinction between the closest prior art and the instant claim invention is that the closest prior art of Echerer et al does not rely upon a measurement reference element setting unit which automatically sets at least one first measurement reference element for use in measurement of a geometric feature of an object and a geometric feature measurement unit which measures said geometric feature of said object image based on the geometric feature of the object image based on first position of the first measurement reference element, in combination with other elements of the independent claim 1.

Accordingly, claims 1-8 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
